

TEAM LEADER

LEVEL 3 APPRENTICESHIP

APPRENTICESHIP PROGRAMME OVERVIEW

Is This Programme for You?

If you are a team leader in the rail industry, this rail contextualised programme is for you. This apprenticeship is ideal for those in first line management roles, responsible for leading teams, managing projects, and delivering specific outcomes in rail.

If you aim to enhance your leadership skills, improve team performance, and advance your management career, this programme is designed for you.

What You Will Learn

Through the apprenticeship, you will learn how to support, manage, and develop team members, oversee projects, and effectively plan and monitor workloads and resources. You'll deepen the skills necessary to take responsibility for delivering operational plans, resolving issues, and building strong relationships.

The Level 3 Team Leader Apprenticeship not only equips you with practical expertise but also allows you to showcase your achievements in a portfolio of real improvement activities, helping you stand out at work.

"The knowledge and skills I gained throughout the apprenticeship gave me techniques and tools to manage situations I would have previously found daunting, to the point that I was promoted to a line management position during the course, a step that I would have previously never considered."

Lauren Rothery, Network Rail - Level 3 Apprentice
